DETAILED ACTION

Allowable Subject Matter

Claims 1, 3-13, 15-24, and 27 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or suggest the liquid crystal display structure as proposed in claim 1. Arguments submitted on 7/21/06 are persuasive in identifying that the hole in the common electrode of Lee is not located above the entire protrusion shaped electrode (see Remarks Page 9).

U.S. Patent No. 5,969,781 to Matsuyama et al. discloses an empty hole of a common electrode (Figure 4B element 14) as directly above a pixel electrode (Figure 4B element 7), but fails to disclose the pixel electrode as having a protrusion shape. Furthermore, the prior art fails suggest a remedy for this deficiency, among others, of Matsuyama.

U.S. Patent No. 7,002,653 to Taniguchi et al. discloses a pixel electrode (4) having a protrusion shape, but fails to disclose a common electrode as having an empty hole above the entire protrusion shaped electrode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Application/Control Number: 10/786,282

Contact Information

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Michael H. Caley whose telephone number is (571) 272-2286.

The examiner can normally be reached on M-F 8:30 a.m. - 5:00 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, David C. Nelms can be reached on (571) 272-1787. The fax phone number for the

organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would

like assistance from a USPTO Customer Service Representative or access to the automated

information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
